THE ARUBA CRAFT DISTILLERY

Product Portfolio

PASSIONATELY HANDCRAFTED, DISTILLED, BOTTLED & AGED IN SMALL BATCHES ON ARUBA

OUR STORY

Austrian national Gunther and Dutch national Marco, both Aruba residents and fanatic beach tennis players. One night, after having lost their match (again), they realized that this might not be their career path forward. A heavy brain storming session ensued and by the time the club bar closed, an idea was born.

It was time for a distillery on Aruba.

From the start it was clear to them that it was not going to be easy, as both did not have a history in distilling spirits, just drinking them.

Gunther the investor & Marco an engineer (a damn good one as well) needed to be educated. They embarked on a pilgrimage that took several years.

In 2024 Aruba Red Anchor Spirits was born, named after the San Nicolas anchor, a homage "To All Seamen". We offer a range of high quality rum, whisky, vodka and gin.

And the rest, as they say, is history....

PASSIONATELY HANDCRAFTED, DISTILLED, BOTTLED & AGED IN SMALL BATCHES ON ARUBA

VODKA – as pure as it gets

This remarkable spirit, possesses unique qualities that set it apart as the cleanest and purest of all alcoholic beverages, cherished by enthusiasts around the world.

It undergoes multiple distillations resulting in a spirit that is exceptionally clean and smooth on the palate.

Our vodka is polished through an activated carbon medium, to achieve an impeccable level of purity.

As a result, Red Anchor vodka not only looks pristine, it tastes like that as well.

For those who like to mix, Red Anchor offers a number of flavored vodkas.

RUM – spirit of the Caribbean

With its rich history, rum stands tall as the epitome of the greatest drink. The mere mention of rum evokes images of tropical paradises and swaying palm trees, transporting you to distant exotic shores.

Whether it's smooth for the enthusiast, aged for the philosophical or fruity for the vibrant, it encapsulates the spirit of exploration and the joy of embracing new experiences.

Red Anchor matured rum undergoes aging on American or French oak.

GIN – carnival in a bottle

Referred to as the elixir of the Gods, gin stands proudly as the best botanical drink captivating the hearts of aficionados around the globe.

With its rich history, gin has evolved to embrace an incredible array of flavors.

From the always present juniper berry, to coriander or angelica root each botanical infusion adds depth and complexity, offering a delightful symphony of tastes that can be tailored to suit every individual's preference.

Whether enjoyed in a classic gin and tonic or a sophisticated Martini, Red Anchor gin makes every single glass a masterpiece of discovery.

GIN LONDON

Nose: delicate juniper

Tongue: best paired with tonic

Savory dark whisky infused with juicy notes of cherry

WHISKY HONEY

Nose: floral nectar

Tongue: bold yet sweet

750 ml, 40% Vol.

Smooth honey whisky with lingering finish

WHISKY – good just got great

Often considered the "water of life," it is undeniably the finest spirit in the world. Its rich history, complex flavors and craftsmanship make it a true delight for connoisseurs and enthusiasts alike.

Whisky production has evolved over centuries, with each region contributing its own distinct style and techniques. Every sip tells a story of tradition and dedication, a symphony of tastes that range from sweet and fruity to smoky and robust.

The unique production method and aging on American or French oak adds further complexity and nuance to the Red Anchor spirits resulting in a whisky that embodies both science and art.

Why Aruba Red Anchor Spirits ?

- We do not have a century of history with generations behind us
- We do not have an estate where we grow sugarcane and grains
- We do not have decades of experience (we started in 2024)
- We do not have hundreds of barrels that are aging our spirits
- We do not produce 100,000 gallons (or even liters) per year
- We do not have a large distillery that takes hours to see

It is not difficult to make alcohol,
to make a high quality drink however, that is a whole different story.
We are happy to share that story with you.

So why bother... ?

We are the only Aruban distillery that offers a full range of locally handcrafted high quality spirits;

Vodka, Gin, Whisky and Rum.

Locally handcrafted means that the fermentation, distillation, filtration (polishing), flavoring (profiling), aging and bottling is passionately carried out in small batches in our craft shop.

Aruba's pristine water quality is crucial in this process.

And it is all there ready for you to see....

Just walk in to see what we do and how we do it.
